mibec™

DHP Easy-Pack

Complete Pre-insulated Pipe Kits

Mibec DHP is a pre-insulated, flexible, energy-saving PE-Xa piping system that is perfectly suited for transporting hot water between the remote heat source and the building applications

- Unequalled flexibility for easy installation
- Perfect for renewable energy applications
- Supplied in 10m, 15m, 20m and 25m packs
- A solution for every application

Mibec DHP comprises a carrier pipe or pipes surrounded by a thick insulation layer, all contained in a twin-wall outer casing for maximum protection.

Mibec DHP pipes are used throughout the UK and are available direct from our offices in Shropshire and Cirencester.

Mibec DHP Easy-Pack

comprises of the following items:

- Pipe coil – 10m, 15m, 20m and 25m lengths
- 4 Pipe Couplings
- 2 Dust Caps
- Installation Instructions

Saving energy and preserving the environment

Mibec supply products that contribute to a sustainable future. Our products help keep energy consumption and CO2 emissions to a minimum.

Mibec DHP pipes are durable, contain no pollutants and are non-toxic. All materials used are produced without CFCs (chlorofluorocarbons) that can deplete the ozone layer. During the production process we are highly conscious of energy consumption and there is no pollution of air, water or soil.

Geothermal heat pumps

Heat pumps for air / ground water

Wood and pellet boilers

Biomass and biogas

Easy installation

◊ No special assembly tools required

◊ No couplings or accessories necessary to overcome obstacles*

◊ Faster assembly times

◊ No skilled welders required to make the connections

◊ No expensive pre-insulated bends required

◊ Limited weight facilitates easy installation

◊ Simple and safe modular system of connections, including insulation and finishing kits

◊ Individual approach to market-specific demands outside of standard solutions

Under normal installation circumstances.
